## The Sage Handbook of Early Childhood Research

Recent decades have seen an upsurge of research with and about young children, their families and communities. The SAGE Handbook of Early Childhood Research provides a landmark overview of the field of early childhood research and sets an agenda for early childhood research into the future. The Handbook is comprised of 45 chapters written by internationally recognized experts in the field, who apply their expertise to conceptual and methodological issues in research and the impact of research on relevant fields of practice. The work also recognizes the main contexts of early childhood research: home and family contexts; out-of-home contexts such as services for young children and their families; and broader societal contexts of that evoke risk for young children.
