Joseph P. Farrell

Babylon's Banksters: The Alchemy of Deep Physics, High Finance and Ancient Religion Joseph P. Farrell

In this latest installment of his remarkable series of books of alternative science and history, Joseph P. Farrell outlines the consistent pattern and strategy of bankers in ancient and modern times, and their desire to suppress the public development of alternative physics and energy technologies, usurp the money creating and issuing power of the state, and substitute a facsimile of money-as-debt. Here, Farrell peels back the layers of deception to reveal the possible deep physics that the “banksters” have used to aid them in their financial policies.

Feral House also published Farrell’s *Philosopher’s Stone: Alchemy and the Secret Research for Exotic Matter*.
