Reincarnation: The View from Eternity O T Bonnett

The Universe is a continuum of intelligent consciousness, and we are inseparable from it. The only boundaries are artificial, placed there by people who fail to grasp the wholeness of it all. For any person to continue living, bound by a focused, narrow belief system, is a tragedy of great proportion. It is time to exercise our intellectual muscles for a change and take responsibility for our lives.

It is only through knowledge that humankind can assume control of its destiny and cease to wander aimlessly, and sometimes with malice, through life. Adopting a philosophy which includes a metaphysical approach to the Universe will enable us to rise up, becoming the benevolent and loving seekers of wisdom that we are intended to be. We must keep in mind that the entire purpose of individuated human consciousness is to attain wisdom. To the degree that goal is achieved, each of us can contribute to the wisdom of the Universe.

Covered in this book:

- * The Universe as a Sentient and Spiritual Being
- * The Multidimensional Spirit
- * The Nature of Mattergy
- * A New View of Evolution
- * Multiple Incarnations
- * Spirit of Man, Plants and Animals and their Connections to the Universe
- * Parallel Pulse Dimensions

A medical doctor of over 40 years explores the nature of reincarnation and man's role in the universe.
