The novel *To Kill a Mockingbird* earned the author, Harper Lee, the famous Pulitzer Prize in 1961. The novel presents a historical background of racism-led society in America. Harper Lee has chosen the character of Scout to screen all historic events out of her eye. The reality is that the novel has the same circumstances as the author had in her life, but she negates the novel to be her biography. It remains the fact that there is a lot of resemblance between her life events and those described in the novel.

From a critical point of view, the novel is compelling and engaging. The story of the novel is interwoven into incidents, which are factual in nature and develop a series of eventful episodes.

The author brings the readers to the pre- Civil Rights Movement in America when racism was the biggest menace of the time. The African-American community was suffering at the hands of the well-privileged white people class.

The novel revolves around Scout who hails from a respected family of the white people. Unlike other white people, Scout's father, Atticus, a renowned lawyer, is vocal against the racism-led justice system.
