**The Ninth Siddhi: Use Ancient Knowledge and Modern Science to Win the Lottery** Larry Vingelman  
Win the lottery, Create More Wealth, and Be a Happier Person. You need a little extra money so you play the lottery. You see other people winning. Unfortunately, you're not, so you try harder. You try harder by playing more numbers, which results in spending more money, and still you don't win. Losing money makes you feel anxious, angry and frustrated. What started as a pleasant pastime to make a little money is now no fun at all. This system will help you: By using yoga meditation to predict winning numbers, we use a proven technique that for millennia has been used to develop prophetic vision or the ability to predict future events. By using modern numerical tools to rank play and monitor your improvement in this ancient Craft. By encouraging you to share your meditative and lottery prediction experiences, so others may learn from your trials and tribulations as you aspire to improve your predictive abilities. By giving you an understanding of the tradition of the Craft, you will learn firsthand the immeasurable power this method had in the historical past and how and why these yoga meditation techniques were hidden from us in the west for over 1600 years. By working in groups to win a Mega lottery you take advantage of a scientifically proven effect of group meditation known as The Super Radiance Effect. Why should you buy this book? Practicing the Ninth Siddhi will help keep your lottery play in perspective. You will spend less, win more and feel good about playing. You will discover and experience the power and consciousness beyond the ego. This is the main point of the book, the principle behind the Craft. Importantly, by using this meditation technique, you will experience less stress in your life allowing you to make better life choices. You will develop over time a mindset, which produces wealth, prosperity and abundance. Best of all, you will experience greater inner-directedness, which will widen and deepen your capacity to love. Why doesn't the average player win more lotteries? The average player believes that the lottery can be predicted on the surface level of the mind. It cannot. No one has. No one will. Generally speaking, fear and anxiety are the root cause of suffering and lottery losses for the average player. Losses lead to trying harder, which leads to spending more, which leads to larger losses. The cycle is repeated increasing fear, anxiety, and frustration. Break this losing cycle. Experience a winning mindset. Take a step forward to wealth, prosperity, and abundance. Meditate, Chart, Spend Less, Win More, and be a happier person. Personal Note: I personally used this meditation system to win both a pick 3 lottery and a pick four game. I document my wins in the book. This system worked for me. It will work for you.
