'Does He Like Me Or What?' is a fun and down-to-earth look at the signals that a guy will send you when he is attracted to you.

He smiles at you and then looks to the floor. Does that mean he's interested, shy, or is he embarrassed that you like him and he doesn't feel the same way?

He often teases you or calls you names. Is he being mean, trying to be funny, or does he like you?

How do you know if he's just being friendly or if he wants something more?

How can you be sure that he likes you and not one of your friends?

Full of tips on how to interpret the things he says and does, this book is an accurate and fun guide to decoding your situation and releasing your uncertainty.

Also included is a 'Does he like me or what?' quiz - a cheat sheet, if you like, which makes the process of decoding his interest in you even more fun, fast - and exceptionally accurate. You can even measure if he's getting keener on you over time.

How can you be confident that the decoding principles will apply to your guy? Well ... the purpose of sexual attraction is to encourage people to find a mate and breed. Breeding is essential to the survival of the human race, therefore it is in our genetic makeup to signal members of the opposite sex that we are interested so that we can reproduce. In these modern times we may have lost touch with our primal beginnings, half the time he wouldn't even be consciously aware that he's sending you the signals, but nevertheless he's doing it. Why? Because he's biologically programmed to do so.

So that just leaves one question ... Are you ready to find out if he likes you once and for all?
