The Silverado Squatters Robert Louis Stevenson

The scene of this little book is on a high mountain. There are, indeed, many higher; there are many of a nobler outline. It is no place of pilgrimage for the summary globe-trotter; but to one who lives upon its sides, Mount Saint Helena soon becomes a centre of interest. It is the Mont Blanc of one section of the Californian Coast Range, none of its near neighbours rising to one-half its altitude. It looks down on much green, intricate country. It feeds in the spring-time many splashing brooks. From its summit you must have an excellent lesson of geography: seeing, to the south, San Francisco Bay, with Tamalpais on the one hand and Monte Diablo on the other; to the west and thirty miles away, the open ocean; eastward, across the corn-lands and thick tule swamps of Sacramento Valley, to where the Central Pacific railroad begins to climb the sides of the Sierras; and northward, for what I know, the white head of Shasta looking down on Oregon. Three counties, Napa County, Lake County, and Sonoma County, march across its cliffy shoulders. Its naked peak stands nearly four thousand five hundred feet above the sea; its sides are fringed with forest; and the soil, where it is bare, glows warm with cinnabar. Life in its shadow goes rustically forward. Bucks, and bears, and rattlesnakes, and former mining operations, are the staple of men's talk. Agriculture has only begun to mount above the valley. And though in a few years from now the whole district may be smiling with farms, passing trains shaking the mountain to the heart, many-windowed hotels lighting up the night like factories, and a prosperous city occupying the site of sleepy Calistoga; yet in the mean time, around the foot of that mountain the silence of nature reigns in a great measure unbroken, and the people of hill and valley go sauntering about their business as in the days before the flood. To reach Mount Saint Helena from San Francisco, the traveller has twice to cross the bay: once by the busy Oakland Ferry, and again, after an hour or so of the railway, from Vallejo junction to Vallejo. Thence he takes rail once more to mount the long green strath of Napa Valley. In all the contractions and expansions of that inland sea, the Bay of San Francisco, there can be few drearier scenes than the Vallejo Ferry. Bald shores and a low, bald islet inclose the sea; through the narrows the tide bubbles, muddy like a river. When we made the passage (bound, although yet we knew it not, for Silverado) the steamer jumped, and the black buoys were dancing in the jabble; the ocean breeze blew killing chill; and, although the upper sky was still unflecked with vapour, the sea fogs were pouring in from seaward, over the hilltops of Marin county, in one great, shapeless, silver cloud. South Vallejo is typical of many Californian towns. It was a blunder; the site has proved untenable; and, although it is still such a young place by the scale of Europe, it has already begun to be deserted for its neighbour and namesake, North Vallejo. A long pier, a number of drinking saloons, a hotel of a great size, marshy pools where the frogs keep up their croaking, and even at high noon the entire absence of any human face or voice—these are the marks of South Vallejo. Yet there was a tall building beside the pier, labelled the Star Flour Mills; and sea-going, full-rigged ships lay close along shore, waiting for their cargo. Soon these would be plunging round the Horn, soon the flour from the Star Flour Mills would be landed on the wharves of Liverpool. For that, too, is one of England's outposts; thither, to this gaunt mill, across the Atlantic and Pacific deeps and round about the icy Horn, this crowd of great, three-masted, deep-sea ships come, bringing nothing, and return with bread.
