**100 Questions (and Answers) About Statistics (SAGE 100 Questions and Answers)** Neil J. Salkind

In an increasingly data-driven world, it is more important than ever for students as well as professionals to better understand basic statistical concepts. **100 Questions (and Answers) About Statistics** addresses the essential questions that students ask about statistics in a concise and accessible way. It is perfect for instructors, students, and practitioners as a supplement to more comprehensive materials, or as a desk reference with quick answers to the most frequently asked questions.

“The key strength of this book is the straightforward approach. I love the to-the-point question-and-answer format. . . . This book would be useful in both statistics and research methods courses . . . [and] in math tutoring labs. I love the tone the author uses, as it is not condescending. Students will be encouraged.”

—**Jamie Brown**, *Mercer University*

“The sequencing of the questions works very well—from the most basic to the more intimidating questions often asked by students in an intro class. . . . If Dr. Salkind is the author, I know it will be well-written, and both entertaining and easy to understand.”

—**Linda Martinez**, *California State University, Long Beach*

“Practical examples from all types of work: showing the steps to do each analysis and then the ways to use the results responsibly.”

—**Jennifer R. Salmon**, *Eckerd College*
