## **Choice Theory in the Classroom** William, M.D. Glasser

William Glasser, M.D., puts his successful choice theory to work in our schools--with a new approach in increasing student motivation.

"Dr. Glasser translates choice theory into a productive, classroom model of team learning with emphasis on satisfaction and excitement. Working in small teams, students find that knowledge contributes to power, friendship and fun. Because content and the necessary student collaboration skills must be taught, teachers need to develop skills if they are to use this model successfully. The dividends are 'turned-on ' students and satisfied teachers."

--Madeline Hunter, University of California at Los Angeles

"*Choice Theory in the Classroom* is a landmark book, without question one of the most important and useful books for teachers to appear in a long while. Written with rare lucidity and grace, the book has numerous instantly usable ideas that will contribute fundamentally to the success of classroom teachers. William Glasser combines his extensive theoretical expertise and wide practical experience to provide a practical and illuminating guide for teachers [that] should be required reading in every college of education in the country."

--David and Roger Johnson, University of Minnesota

"*Choice Theory in the Classroom* presents an insightful analysis of what is wrong with traditional school and what need to be done about it. Dr. Glasser gives a compelling rationale for the use of learning-teams in schools to capture the excitement and commitment students display in sports but rarely in the classroom. The book is well written and persuasive. I hope every teacher in America buys it, believes it, and behaves accordingly."

--Robert Slavin, John Hopkins University

#### **Gordon Frederick:**

That publication can make you to feel relax. This particular book Choice Theory in the Classroom was vibrant and of course has pictures on there. As we know that book Choice Theory in the Classroom has many kinds or type. Start from kids until teenagers. For example Naruto or Private investigator Conan you can read and believe you are the character on there. Therefore not at all of book are generally make you bored, any it makes you feel happy, fun and relax. Try to choose the best book for you personally and try to like reading this.

#### **Terry Burrows:**

As a scholar exactly feel bored to reading. If their teacher requested them to go to the library or make summary for some guide, they are complained. Just minor students that has reading's spirit or real their leisure activity. They just do what the educator want, like asked to go to the library. They go to generally there but nothing reading seriously. Any students feel that reading through is not important, boring and can't see colorful images on there. Yeah, it is to get complicated. Book is very important for you. As we know that on this age, many ways to get whatever we wish. Likewise word says, many ways to reach Chinese's country. So , this Choice Theory in the Classroom can make you feel more interested to read.
