What Darwin Got Wrong

Jerry Fodor, Massimo Piattelli-Palmarini

What Darwin Got Wrong Jerry Fodor, Massimo Piattelli-Palmarini

With a New Afterword

What Darwin Got Wrong is a remarkable book, one that dares to challenge the theory of natural selection as an explanation for how evolution works--a devastating critique not in the name of religion but in the name of good science. Combining the results of cutting-edge work in experimental biology with crystal-clear philosophical arguments, Fodor and Piattelli-Palmarini mount a reasoned and convincing assault on the central tenets of Darwin's account of the origin of species. This is a concise argument that will transform the debate about evolution and move us beyond the false dilemma of being either for natural selection or against science.
