This Teacher Guide contains the main teaching materials for the lessons. It includes background information on the important concepts in the lessons, a list of required materials, an activity-by-activity description of what students are learning, and the answers to questions in the lessons. The Student Pages supplement the Teacher Guide and provide an opportunity for students to work more on their own. While many of the lessons promote independent learning, we recommend you continue to provide instruction and guidance to your student as necessary. The Table of Contents in this book shows the related page numbers for the Student Pages book in a separate column. Note that the pages in this book are also available online in the Materials list. The online version should match the book version unless it has an "update" label.
