**Cognitive-Behavioral Therapies with Lesbian, Gay, and Bisexual Clients** Christopher R. Martell, Steven A. Safren, Stacey E. Prince

This book provides a framework for affirmative, empirically supported cognitive-behavioral therapy (CBT) with lesbian, gay, and bisexual clients. Guidelines for competent assessment and treatment are integrated with practical descriptions of widely used CBT applications. In addition to presenting powerful treatment tools for depression, anxiety, and other problems encountered by gay and straight clients alike, the book offers clear-cut guidance on helping individuals and couples cope with the stresses of sexual minority status. Rich case illustrations bring to life the diversity of lesbian and gay communities, highlighting commonalities as well as differences among the issues that clients bring to therapy. Filling a crucial gap in the literature, this is an important resource for therapists in a range of settings, from CBT newcomers to experienced practitioners. Appendices include resources and sample client and therapist forms.

Winner--APA Division 44 Distinguished Book Award in Lesbian, Gay, and/or Bisexual Psychology

#### **Bradley Harshbarger:**

As a pupil exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some guide, they are complained. Just small students that has reading's soul or real their interest. They just do what the professor want, like asked to go to the library. They go to at this time there but nothing reading significantly. Any students feel that reading through is not important, boring as well as can't see colorful pics on there. Yeah, it is for being complicated. Book is very important in your case. As we know that on this period, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. Therefore this Cognitive-Behavioral Therapies with Lesbian, Gay, and Bisexual Clients

can make you feel more interested to read.
