Not simply a do it yourself and not a book of designs, The book of furniture making is a practical and comprehensive manual which caters for all levels of skill and for all tastes. Laymen and skilled carpenters alike will be able to build their own furniture for every room in the house as well as for out of doors. Each chapter is devoted to a different area of the home- kitchen, bedroom, living room, study/work room, children's area and garden patio- each with a wide range of projects and designs. Each project includes a shopping list and cutting list, as well as detailed step by step instructions, diagrams and photographs. A major feature of the book is the comprehensive Tools and Techniques section, which is really a complete book in itself. There is advice on how to use tools, from the simplest hammer to power tools." This excerpt is taken from the inside of the dust jacket.
